## Investment Objective

The fund seeks to achieve growth of your investment by investing mainly in shares (equity) and similar securities issued by high quality companies listed on the stock exchanges of countries within the Organisation for Economic Cooperation and Development (OECD) and, in particular, the U.S. and North American OECD countries.

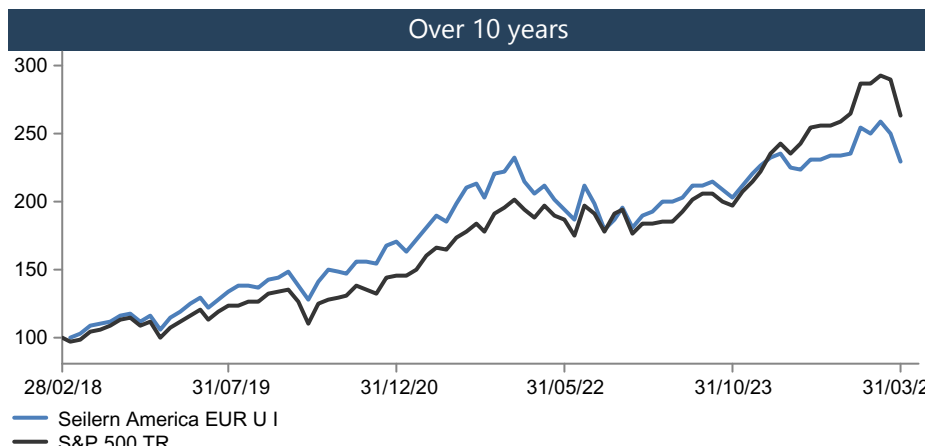

## Commentary

UnitedHealth was the best performer for the month, up +10.75%. A favourable recommendation for the company in a US Department of Justice lawsuit alleviated perceived legal risk and improved market sentiment. CME was the second-best, up +5.05%. While there was no company specific news during the quarter, the waves of volatility in March benefitted the exchange. Nike was the worst performer, down -19.67%. A combination of an earnings release that saw the time-to-recovery for the business lengthen and macro concerns around global growth weighed heavily on the stock. Intuitive Surgical was the second-worst, down -13.59%. While there was no company specific news, concerns around potential US healthcare reform impacted the stock.
