Investment Objective

The fund seeks to achieve growth of your investment by investing mainly in shares (equity) and similar securities issued by high quality companies listed on the stock exchanges of countries within the Organisation for Economic Cooperation and Development (OECD) and, in particular, the U.S. and North American OECD countries.

Commentary

Graco was the best performer, up +11.82%. Although the company released weak quarterly results, given their strong manufacturing position in the US (c.85% of products), the stock rallied on expectations that they would win share against their competitors with a higher share of Chinese manufacturing. Booking was the second-best performer, up +11.24% on a combination of a strong demand environment for the travel industry and management's commitment for greater efficiencies in marketing and fixed costs. Mettler-Toledo was the worst performer, down -3.14%. Results were largely in line with consensus though China continues to be under pressure and biopharma customer activity showed mixed trends. Zoetis was second-worst, down -1.97%. The company reported strong Q3 results, with a beat and raise driven by strong growth in their Companion Animal division. However, revenues from Librela, their pain relief drug, were slightly below expectations, weighing on the shares.
