Investment Objective

The fund seeks to achieve growth of your investment by investing mainly in shares (equity) and similar securities issued by high quality companies listed on the stock exchanges of countries within the Organisation for Economic Cooperation and Development (OECD) and, in particular, the U.S. and North American OECD countries.

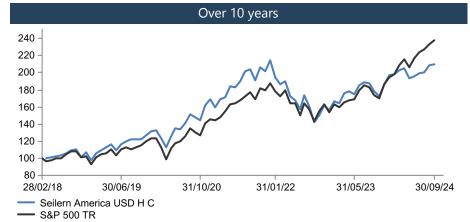

Commentary

Booking was the best performer, up +7.75% on no company-specific news. An undisclosed position was second best, up +6.48%. The company gave a positive outlook at an investment bank's healthcare conference. There were also a couple of broker upgrades during the month. Adobe was the worst performer, falling -9.86% following their Q3 results. Although numbers were good, with sales and profits ahead of consensus, guidance for Q4 underwhelmed market expectations. Edwards Lifesciences was second worst, down -5.67%. There was no company specific news during the quarter, however its weak second quarter results are likely still weighing on the stock.
