Investment Objective

The fund seeks to achieve growth of your investment by investing mainly in shares (equity) and similar securities issued by high quality companies listed on the stock exchanges of European countries within the Organisation for Economic Co-operation and Development (OECD).

Commentary

Lindt was the best performer, up +4.83%. The stock was helped by stronger-than-expected 2024 results and 2025 margin guidance which eased investor concerns over persisting cocoa inflation. Nestle was the second-best, up +2.55%. Whilst there was no company specific news, the rotation into safe-haven assets benefitted the stock. Novo Nordisk was the worst performer, down -25.89%. The outcome of the second trial for Cagrisema failed to reassure investors after the disappointing outcome of its first trial last year. Growing geopolitical tension between the US and Denmark also weighed on the stock. Spirax Group was the second-worst, down -15.05%. Despite posting a solid set of full-year results, guidance for FY25 organic growth was marginally below expectations and a larger than expected currency effect in the guidance led to mid-single digit downgrades.
