Investment Objective

The fund seeks to achieve growth of your investment by investing mainly in shares (equity) and similar securities issued by high quality companies listed on the stock exchanges of European countries within the Organisation for Economic Co-operation and Development (OECD).

Commentary

Sage was the best performer, up +35.34% on a combination of confidence in its ability to meet FY25 targets, despite ongoing macro uncertainties, and increased margin guidance, indicating stronger scaling than expected. Spirax was second-best, up +11.08%. The company reiterated full-year guidance at their trading update and noted improved growth vs H1. As a result, there has been a strong relief rally, with the stock having been down almost -40% YTD. Nestlé was the worst performer, down -6.25%. Shares had been weak following the Q3 trading update in October in which the company missed on organic sales and lowered full-year guidance. A capital markets day in November saw a further downgrade to medium-term sales and margin targets. L'Oréal was second-worst, down -4.53%. While there was no company-specific news, profit warnings from competitors highlighted a more challenging global beauty market.
